Combatting FEC

As an Event Partner of the Risk & Compliance Annual Congress Brussels you will capture the attention of the decision-makers and advisors in relation to combatting financial economic crime, not only prior to and during the Congress, but also afterwards. The Congress focuses on being interactive and encouraging networking.

We have provided you with three different options: Simply choose the package that is right for you. We can advise you on making your choice and, if you wish, also provide you with tangible examples from other Event Partners who have previously participated in our Congress.
